

# Group 1 Night Latches, Reslocks & Rim Locks

Group 1

# Introduction

## Introduction

UNION provides a comprehensive range of cylinder rim and lever rim locks which are ideal for both architectural application and residential use. The range includes security variants, as well as standard variants and are ideal for use in combination with UNION mortice deadlocks on external doors.

## Features and Functions

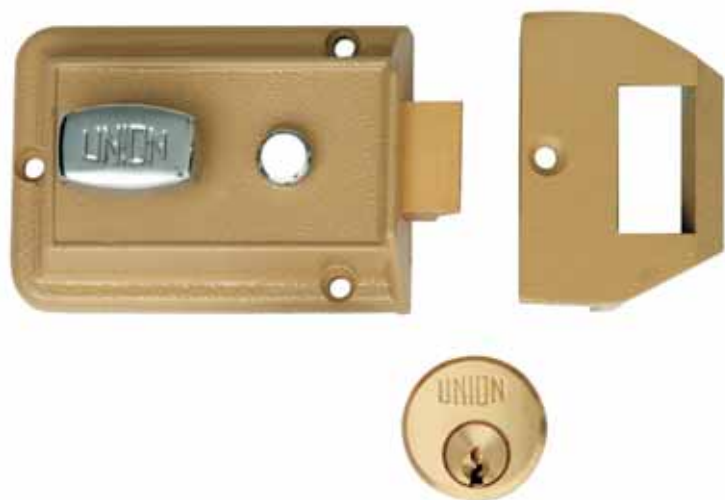

The following diagram gives an overview of the main features and functions of a UNION night latch. For a full explanation of terminology, please refer to the glossary on page 0.10 in the Introduction at the front of the catalogue.

## Key Control Systems

UNION rim locks and night latches can be supplied individually keyed, keyed alike, key to pass or masterkeyed. See individual product pages for details.

## Finishes

UNION rim locks and night latches can be supplied in a wide variety of finishes. See individual product pages for details.

**Lockable Handle:**  
Handles can be deadlocked prior to leaving the building. This prevents someone reaching in and opening the door.
